TEAM 8: Team Name: Food Processing	
Team Lead Name: Sanjeev Singha	
Domain: Food Processing	
Team Member Name	Institute
Sanjeev Singha	Assam Don Bosco University
Aman Pradhan	Assam Don Bosco University
Jerson Haobam	Assam Don Bosco University

Table 8: Team 8 Details

Seven out of the eight teams that registered were present for the presentation round. The judge for the event was **Mr. Abhijit Matak**, Brand Manager, North Eastern Handicrafts and Handlooms Development Corporation Limited, and Co-Founder & Marketing Head Co-Founder & Marketing Head, Alchemy Pixels.

The event started with **Mr. Palash Jyoti Nath**, President, Innovation and Entrepreneurship Club, ADBU, welcoming Mr. Abhijit Matak with a phulam gamucha. Mr. Nath also briefly stated about the need for the ideation competition at our institute.

The event started with the first presentation being made by team BLISS. The objective of the team was to develop a mobile app to calculate the happiness index of students. They mentioned that the app will help reduce suicide rates in the country by detecting students suffering from depression and then directing them to psychiatrists.

Team SOLAR then presented the importance of renewable energy in the present day context. Their presentation however lacked a business idea.

The idea of Team 3 was to tackle the problem of garbage disposal. Their idea was to develop a mobile app that would allow citizens to report negligence in garbage collection.

Team 4 presented the idea of a portable diagnostic kit that a doctor can carry along with easily when treating patients in the rural area. The basic concept is about enabling the doctor to carry his entire lab in just a simple portable kit.

Team 5 presented their idea of enabling a motor to self charge its battery. Their idea however lacked sufficient details.

Team 6 presented their idea of developing an application to provide financial education to citizens. Their view was that financial education is not covered in much detail in the current school curriculum and hence this app will be of great help for all citizens.

Team 7 presented their idea of tracking the proper functioning of the PM POSHAN scheme by ensuring that pilferage does not happen.

Team 8 could not make their presentation.

Winners' List

Based on the performance of the teams in the presentation round, awards were given to four teams as mentioned below:

Award	Team Name	Team Members	Prize Money
First Prize	Portable Diagnostic Kit	Aakash Banerjee, Uddipta Ojha, Kaustav Charkraborty	Rs. 3000.00
